SUMMARY

Content creator and AI media builder with a software-engineering background. Produce scripts, images, voice-over and finished videos through an automation workflow (**M-Auto Studio**: research, script, ComfyUI/AI images, Google Flow experiments, voice, FFmpeg editing, captions, metadata and scheduled upload). This work is an evening-side track alongside 3+ years of professional AI engineering, including agents, n8n automation and production systems.

SKILLS

Copywriting	Hooks and short-form scripts, YouTube scripts, SEO blog articles, Facebook/Zalo posts, Telegram broadcasts, email sequences, landing-page copy, product listings, brand voice
Video	Script-to-video production, scene planning, Ken Burns and transitions, karaoke-style captions, thumbnails and titles, YouTube metadata, Shorts (9:16) repurposing, CapCut, FFmpeg
Audio	Voice-over with Edge-TTS, cloud TTS and zero-shot voice cloning (Chatterbox), background-music selection and ducking, word-level caption timing (Whisper)
AI content	Prompting and brand-voice systems, ComfyUI / Stable Diffusion image workflows, Gemini video analysis, CrewAI writing pipelines, quality scoring
Channels	YouTube, TikTok, Facebook, Instagram, Telegram, Zalo, email, SEO

EXPERIENCE

Freelance Content & AI Video Producer
2026 – Present

- Produce AI-assisted YouTube content end to end (research, script, voice-over, editing, metadata and scheduled upload) and write launch content for a commercial trading product.

AI Engineer (content products) · MekongAI
06/2023 – 07/2026

- Built content tools used by clients: an English-learning question generator, a multi-agent writer for Facebook, Instagram and TikTok in a learned brand voice, and a video-analysis tool that breaks scripts into segments and scores hooks; also coordinated work within a 7-person AI team.

SELECTED WORK

M-Auto Studio – multi-channel AI YouTube studio

Script · Images · TTS · FFmpeg · Captions · YouTube API

- Turns one idea into an upload-ready video: trending-topic research, scene-by-scene script, AI images, voice-over, editing, captions, title, description, chapters and tags, then a scheduled upload.
- **Channel templates and personas:** 7 channel profiles set niche, persona, voice, image style and branding; 16 characters, 101 voices, 11 image styles and 40 music tracks ship as seed data.
- **Editing quality:** Ken Burns motion, crossfade transitions, word-highlighted karaoke captions, music ducking under speech, 16:9 / 9:16 / 1:1 / 4:5 output and an automatic repurpose of long videos into Shorts.
- **Quality critic:** scores script, visuals, A/V sync and captions, then regenerates the weakest stage; rule-based guards catch absolute claims and wrong-language text.

B. Nexus Quantum – launch and growth content

SEO · Email · Social · Video scripts · Landing pages

- 32 documents (~20,000 words): acquisition strategy, Facebook/Zalo posts and Telegram broadcasts in Vietnamese, short-form hooks, YouTube scripts, SEO blog articles, a welcome-email sequence, landing-page copy, community messages, the MQL5 Market product description and user guides.

AI Content Generator and TikVault

CrewAI · RAG · Gemini · React

- **Content Generator:** researcher, writer, editor and publisher agents learn a brand voice from sample posts and write for Facebook, Instagram and TikTok.
- **TikVault:** analyses TikTok/YouTube videos with Gemini into a per-segment script breakdown, hook and pacing review and a 1–10 virality score, then writes new scripts from the best references with an adjustable creativity level.

EDUCATION & LANGUAGES

B.Eng. in Information Technology · Vietnam-Korea University of ICT (VKU), Da Nang
2020 – 2025

- Languages: Vietnamese (native), English (professional working proficiency: technical reading and writing).
