SUMMARY

Software engineer who designs and ships algorithmic trading systems end to end. Built **B. Nexus Quantum**, a commercial MetaTrader 5 Expert Advisor: 11 modules, 21 entry modes, an 18-layer scoring engine and 14+ risk-control layers, plus its licensing and payment website (Next.js, Prisma, PayOS). Also runs single-entry scalping EAs as live copy-trading masters (since 09/2026) and researches strategies in Pine Script. Comfortable moving between MQL5, Python (Binance API, Telegram bots, TA signals) and full-stack web.

TECHNICAL SKILLS

Trading	MQL5 Expert Advisors and indicators (.ex5 resources), MetaTrader 5 Strategy Tester, hedging accounts, DCA / grid recovery, hedge-on-reversal, equity-curve trading, ATR / regime-adaptive sizing, XAUUSD, Forex, indices, crypto
Research	Pine Script (TradingView) strategies and indicators, systematic variant testing (A/B parameter and rule ablations), backtest journals and trading-knowledge notebooks, copy-trading master operation
Signals & TA	SuperTrend, ADX, RSI, MACD, Bollinger / squeeze, Ichimoku, Stochastic, Donchian, smart-money concepts (BOS, order block, FVG), VSA, multi-timeframe confirmation
Risk	Virtual balance, max-drawdown stop, profit lock, margin guard, spread-spike block, net-exposure cap, daily limits, consecutive-loss pause, persistent state across restarts
Python	Binance API, Streamlit, Telegram Bot API, n8n automation (built a real-time crypto monitor with MA-crossover signals and Telegram alerts)
Web & Product	Next.js 15, React 19, TypeScript, Prisma, NextAuth, Tailwind, Zustand, Zod, PayOS webhooks (HMAC-SHA256), Vercel, license-key generation

WORK EXPERIENCE

Independent Trading-Systems Developer

2026 – Present

- Develop, document and sell **B. Nexus Quantum** (v3.47) with a listing on MQL5 Market, a public website, community channels (Telegram, Zalo) and demo accounts tracked on MyFxBook. Handle the full product loop: strategy and risk engine, licensing, payments, guides, presets and support.
- Build single-entry scalping EAs and run them live as public copy-trading master accounts since 09/2026 (steady results to date); maintain a Pine Script research loop with systematic variant testing.

SELECTED PROJECTS

B. Nexus Quantum – MetaTrader 5 Expert Advisor

b-nexus-quantum.vercel.app

MQL5 · MetaTrader 5 · XAUUSD · Strategy Tester

- **Architecture:** 11 MQL5 modules (signals, entry and DCA, position management, smart trim, adaptive recovery, equity curve, dashboard, time and news filters, utilities, scoring), 574 configurable inputs, 3 proprietary indicators embedded as resources; on-chart dashboard, heartbeat monitor, account- and expiry-bound licence check, MQL5 Market DRM compatibility.
- **Signal engine:** 21 entry modes plus up to 3 entry and 3 DCA confirmation layers; **SmartTrend** scores 18 weighted layers (multi-timeframe, trend quality, momentum, zones, market structure, volume) with severity veto, fakeout filter and breakout detection.
- **Position logic:** 5-tier DCA with 8 trigger modes, two independent BUY/SELL cycles with persisted state, hedge-on-reversal, zone recovery, 15 take-profit mechanisms (trailing, momentum burst, session- and regime-aware).
- **Smart Trim and Adaptive Recovery:** pairs BUY and SELL positions to cut drawdown at positive net profit; a 6-component sideways-market controller brakes DCA and caps net exposure. 4-state volatility regime classifier with session scaling, ATR auto-scaling of TP/DCA/SL and automatic symbol-category detection (gold, forex, indices, crypto, silver, oil).

B. Nexus Quantum website – licensing, payments and docs

Next.js 15 · React 19 · Prisma · NextAuth · Zod · Vercel

- Next.js 15 / React 19 app with 12 Prisma models; PayOS webhook verified with HMAC-SHA256 that auto-issues licence keys, account link/unlink API, admin dashboards, public guides and backtest gallery.

Single-entry scalping EAs – live copy-trading masters

since 09/2026

MQL5 · MetaTrader 5 · Pine Script · Copy Trading

- Single-entry-at-a-time scalping EAs (XAUUSD focus) for low exposure per trade, running live as public master accounts that others can copy, with presets per risk profile (prop-firm, small account, fund).

EDUCATION & LANGUAGES

B.Eng. in Information Technology · Vietnam-Korea University of ICT (VKU), Da Nang

2020 – 2025

- Languages: Vietnamese (native), English (professional working proficiency: technical reading and writing).
- Trading involves risk. Backtests and demo results are not a guarantee of future performance.
